we're here for you!

**Team ShirtFrame**

*Enjoy your ShirtFrame!*

# Manual

## Hanging Your ShirtFrame in 10 Steps

---

- 1** Open the box, unpack all the components, and check if the following parts are present in the packaging:
  - ✓ 1 x Luxury wooden Frame
  - ✓ 1 x Crystal-clear Art Glass
  - ✓ 1 x Passe-Partout
  - ✓ 1 x Shirt Template (1) + Frame Template (2)
  - ✓ 1 x Back Panel
  - ✓ 1 x Fix it! stickervel
  - ✓ 1 x Wall Plug & Screw
- 2** Remove the protective film from the art glass and place it into the Frame. Then, insert the Passe-Partout with the front side against the Art Glass in the Frame.
- 3** If you have a Passe-Partout with photo cutouts, attach the desired photos to the back of the Passe-Partout using the provided Fix it! stickers.
- 4** Use scissors to detach the Shirt template (1) from the Frame template (2) at the four designated spots. Cut as closely as possible along the edge of the Shirt template (1) to avoid any remaining residues.
- 5** Now, position the Frame template (2) against the Passe-Partout inside the Frame.
- 6** Next, place the Shirt template (1) onto the shirt, fold the shirt tightly around it, and secure it with the provided Fix it! stickers.
- 7** Position Shirt template (1) with the shirt inside the cutout of Frame template (2).
- 8** Secure Shirt template (1) with the shirt onto Frame template (2) using the provided Fix it! stickers at the four designated spots.
- 9** Place the back panel into the ShirtFrame and secure it with the spring clips.
- 10** **Ready to hang! Use the included mounting materials for this purpose.**

*If you want a shirt framed well,  
do it yourself!*
